

## Oildex JIB Testimonials

It pays to be **well connected**

We recently entered into a major acquisition. Initially we anticipated needing 80 man-hours to enter the billing detail into our system. By utilizing Oildex we reduced the requirement to something less than 4 hours, with no keying errors.

Oildex's JIB system is extraordinarily flexible. The Implementation team worked with our business model to accommodate our unique situation.

JIB Complete has saved us time and money.
