FROM WEEKS
TO DAYS

Dealing with paper in the field is risky. With mobile workforces, paper can get lost or ticket information can be hard to read.

Choose an electronic process that will make things easier for you and your customers.

STOP "CHASING" FIELD APPROVERS

Enter basic field ticket information and OpenInvoice will automatically route your ticket to the right person.

SUBMIT TICKETS ELECTRONICALLY

Enter your field tickets directly in OpenInvoice or connect with one of our preferred partners to seamlessly submit tickets and get status updates.

GET RID OF THE PAPER

Eliminate unnecessary risks and costs of paper processing.

REDUCE DATA ENTRY AND ERRORS

Submit the right information the first time with automatic validation.

GET PAID FASTER

Compliance alerts allow your customers to streamline processing for faster approvals and payments

Manual paper processing is a cumbersome, often error-prone process. An electronic field ticket solution not only reduces the amount of errors and guess work, it also minimizes the barriers to getting paid on time.
