

Print and Mail Services

Despite a movement towards electronic statements and away from paper, many owners and working interest partners still want paper checks and statements mailed to them, a process which is both costly and time consuming and exhausts precious in-house resources.

Oildex prints and mails checks and all types of letters, statements and documents for oil and gas operators. Our Print and Mail Services are part of our comprehensive Owner Relations Suite that also includes Owner Portals, Call Center Services and Data Exchange Applications for a complete, turnkey owner relations solution. Regardless of how your owners and partners prefer to communicate – phone, email, online or snail mail – we’ve got you covered.

CHALLENGE: REDUCE PRINTING AND MAILING COST

Accurate and timely dissemination of payments and information is critically important, but printing and mailing can be tedious and time consuming. Often, these administrative tasks are carried out by an operator’s Land or Accounting staff members. While capable, these staff members typically have more strategic tasks to perform, such as identifying new lease opportunities or preparing quarterly reports to inform business decisions.

SOLUTION: OILDEX PRINT AND MAIL SERVICES

Let Oildex Print and Mail Services alleviate this burden, so your staff can focus on your core business. We print and mail checks and all types of documents, from one-time communications, such as acquisition letters and ACH sign-up forms, to common monthly and seasonal statements, such as check detail, JIBs and 1099s. No job is too small, large or complex.

BENEFITS

- No need to invest in dedicated facilities, equipment or technology
- Services available as needed, on demand
- Fast and accurate turnaround
- Free up your staff for higher-value tasks
- Easily ramp up for peak demands
- Economical - pay only for the services you use
- Save money with volume pricing

FEATURES
